

# SELF CHECK-IN FOR TRUCKS AGAINST THE BABEL MIXTURE OF LANGUAGES

The transportation industry is defined by multilingualism and 24-hours-cycles. To circumvent the necessity of personnel around the clock, we offer the option for a self check-in terminal

- Support of multilingualism
- Briefing of/ instruction of/familiarization with local emergency guidelines
- Easy application due to QR-Code based tickets
- Connection to barrier/bar, baffle gates, etc.

- Steering of visitor flows
- Self check-in terminal support
- Connection/Linkage to access control systems
- Multilanguage support
- Welcome screens
- Come/go- check lists
- QR code reader
- Digital Signage

\* The terminal may be equipped with a QR-Code scanner, a voice terminal, or a touch panel. With standard delivery solely a regular reader for access control is installed.
